## FIRST RANK NAVY IMPERATIVE, SAYS COUNTRY'S CHIEF

MAXIMUM WITHIN LIMIT SET BY TREATY IS HARDING STAND.

## REVIEWS FLEET Alaskan Newspapers Given Praise for Ideals and Methods.

[BY ASSOCIATED PRESS.] Seattle, Wash.—President Harding, appearing before the Seattle Press club after his review of the fleet, declared that until the day comes when nations abandon use of armed forces, Alaska must have insurance in a navy of the first rank.

"We were building two years ago at a rate that would have placed our armed sea power in excess of any other power, but in view of the fact that armament cost and competition was leading to menacing national burdens, we invited an international conference to set limitations," the president added. "We asked equality with the first rank for ourselves and accorded it."

Must Continue Rank. "Let us hope our congress, with cordial sanction of the American people, will continue that first rank. I believe our obligation to the world means the most exacting restriction of our maintenance within the maximum limitation created by the conference, and I believe our clear duty to ourselves is to maintain the equality provided in that maximum until a new baptism of international conference places a joint action toward reduction or complete abolishment."

In addition to his observations on the question of naval power, Mr. Harding said that "those of us who think we know a great lot about newspaper making may learn some very simple fundamentals by going to Alaska."

Honors Alaskan Editors. "I found myself," he continued, "involuntarily doing my hat to the editor and publisher who succeeds in maintaining a newspaper for a few cents a copy to 2,000 people, where the circulation maximum cannot exceed 200 or 300 copies. I refrain from an attempted analysis of the relation of the newspaper to the community, but the community value of the publication will remain unchallenged. "There is a limited reflex of the big news of the world, and the newspaper is a reflection of the world, but human interest is fairly satisfied with the tabloid story of world events. Doubtless the Alaskan community is quite as well nourished mentally with its restricted news diet as are some of us."

Time News Is Secret. "The Alaska sheet is the home news, and when the final analysis is written, here is the secret of most newspapers, which is the secret of the community which is a true reflection of the community it serves and I know I am reading an index to dependable public opinion as well as a potent agent in moulding that opinion."

Has Big Audience. "It may reach to the larger congregation; it has every opportunity to commend and defend the law; it is the teacher which knows no vacation; it is the record-keeping agent of human accomplishment, whose silence is the ever continuing inspiration to loftier achievement. Let those of us who find pride in association with the making of the American press, the best press in the world, resolve on a full appraisal of our responsibilities and see that conscience is maintained as editor in chief, and that accomplishment writes the big news which are ever giving the exhilarating thrill to the daily grind."

## GERMANY FACING HUNGER AS MARK NEARS EXTINCTION

FOOD STORES VANISHING FROM MARKETS OF BERLIN.

APPEAL TO CUNO Outlook Desperate; Tea, Coffee And Rice Disappearing; Plan Conference.

[BY ASSOCIATED PRESS.] Berlin—One of the most menacing effects of the collapse of the mark is asserting itself in the growing disorganization of the food situation in Greater Berlin.

This is ascribed to the depleted stocks, the withdrawal of available stores, and price juggling by merchants seeking to protect themselves against the complete extinction of the mark as currency and their resultant inability to procure fresh stocks.

Tea, coffee, rice and other products of the tropics are already disappearing, and there is also a pronounced shortage of potatoes, due to the belated harvest and the fact that the government has been sending heavy shipments into the Ruhr and Rhineland.

The municipality of Greater Berlin has officially petitioned the federal government to take immediate steps to safeguard and reorganize the city's food supply and inaugurate a system of price control. The heads of the municipality and the labor leaders arranged to discuss the situation with Chancellor Cuno and the federal food controller Friday.

This week's price index shows food prices to be 71,000 times the pre-war averages.

## HARD COAL STRIKE LOOMS AS PARLEY SEEMS HOPELESS

UTTER DISAGREEMENT ON CLOSED SHOP AND CHECK-OFF.

MEET ONCE MORE Miners Declare They Will Not Arbitrate; U. S. Intervention Hinted.

[BY ASSOCIATED PRESS.] Atlantic City, N. J.—The gravity of the strike in anthracite mining districts, now in a state of chaos after a split yesterday over the closed shop and the check-off, was indicated this afternoon, with the arrival of the full scale committee of both operators and miners.

Atlantic City, N. J.—The strike cloud which has hovered over anthracite wage conferences at the Hotel Ambassador since July 8 appeared sooty black today as operators and miners, having met Thursday night in utter disagreement over the closed shop and the check-off, met again Friday to decide whether it would be of any use to continue peaceful negotiations.

Neither side could see any rift in the cloud, each declaring it was steadfast in the attitude which led to the break in the conference. Both decline to comment on the possibility of federal intervention. The miners already have announced they do not propose to arbitrate.

The present crisis was reported when John L. Lewi president of the United Mine Workers of America, embodied the check-off and "complete recognition of the union," in a resolution on which the joint committee voted, four to four.

Mrs. Lewis announced that, inasmuch as the operators were "arbitrarily rejecting the proposition, the conferences might as well adjourn."

The miners agreed to attend another session on the chance that some meaning there might be a weakening somewhere.

[SPECIAL TO THE GAZETTE.] Elkhorn—Defense witnesses had the story Friday morning in the preliminary hearing of Adolph Eckman, charged with first degree murder in the death of Carl Fritz, at the Eckman farm a week ago Sunday. The hearing was conducted in the Walworth county courthouse, before Justice Charles Williams of Whitewater.

That Fritz was shot during a quarrel in which Eckman was attempting to defend his wife against assault by Fritz, was the contention of both morning witnesses, Mrs. Delma Eckman and Fritz's wife, Mrs. Delma Eckman. Both the wife of the defendant and his fellow worker denied seeing the fatal shot fired.

Questioned by District Attorney Alfred Godfrey, Johnson testified that Fritz forced his way into the house as Mrs. Eckman attempted to close the door, and led him upstairs. Johnson said he went upstairs but returned almost immediately on hearing Mrs. Eckman call for help. He said he found Eckman and Fritz struggling for possession of the gun, and Mrs. Eckman said she helped Fritz out the back door. He said he had seized a churn dasher and was attempting to fight his way back with it.

"It Was All Over." Mrs. Eckman stood on the porch at one side, holding the screen door open. Johnson testified, in substance, "I was by her side, Eckman and Fritz were in the house. Fritz was on the step, trying to get in. I heard a shot, and it was all over." He said he did not know who fired the shot.

Mrs. Eckman testified she was on another porch, feeding her ducks, when Mr. and Mrs. Fritz drove into the yard. She said she saw Fritz lock the door, but repeated one to let in Johnson, who had been out in the yard. Fritz, she testified, forced his way in before she could get to the door. She said Eckman and Fritz were in the following conversation ensued:

Mrs. Eckman: "Carl, we have hidden you to come here."

Fritz: "I will have a right to come here. I want that gun today."

Mrs. Eckman: "Carl, I haven't got your gun."

Fritz: "If I don't get the gun today, I will kill you."

Charles Fritz Assailed Her. Fritz then seized her by the hair and the throat, she testified, and forced her back on the table. She called for help, she declared, and the three men appeared. Fritz and Eckman struggling for possession of the gun. She said Fritz swung the gun and hit Eckman over the head, and the latter dodged and the gun struck him on the back, breaking the stock. Fritz then was pushed out of the door, she said, where she heard the shot fired. She declared she then went into another room and lay down, completely exhausted.

Three Attorneys. The afternoon session of the hearing opened at 1:30. During the forenoon, Eckman sat behind his three attorneys, E. L. Suesenich, and Maj. Charles Sumner, Elkhorn, and the latter three men appeared. Fritz and Eckman struggling for possession of the gun. # Enough Bran and good eating

If we hadn't told you that Mapl-Flake is 25% bran, you'd never guess it. Yet there's enough bran in Mapl-Flake to be a harmless, natural, non-habit-forming laxative—to "sweep" the digestive tract.

Mapl-Flake is just the thing for you to eat in the morning—appetizing, full of flavor, and genuinely nourishing. It is rich in body-builders—in the mineral salts of phosphorus, iron and lime. It contains those life-giving vitamins which stimulate the appetite and then feed it.

Mapl-Flake is selected whole wheat, sweetened, flaked, and toasted to a delicious brown. No wonder so many mothers are serving it—and their families never dream there's any bran in it.

## \$1000 in Prizes for Jingles

Write a four-line jingle telling how good Mapl-Flake is and how good it is for you. First prize, \$250—and 165 prizes in all. You have a fine chance to win—especially if you're a Mapl-Flake. LA TEST MARKET REPORT

GRAIN

Chicago Review.

Chicago.—Influenced by liberal receipts here, favorable weather north-west and by weakness of deferred deliveries at Liverpool, wheat under-vent moderate sag in price Friday during the early dealings. Besides, the market was bearishly affected by a downturn in values in the corn market. Later, however, reports of rust danger in Canada brought about a rally. The opening, which ranged from 95¢ to 95½¢ lower, with September 95½¢ to 96¢ and then an upturn to about 97½¢ finish.

Subsequently moderate gains in price were scored, the result mainly of estimates that the Dakota and Nebraska would harvest 10,000,000 bushels less than was indicated by the government's July report. The price gains, though, failed to last and the close was unsettled. It net lower to 96¢ advance, Sept. 97½¢ and Dec. 98½¢ to 1.00½¢.

Rains, benefitting the new corn crop, led to declines in the price of corn and oats. After ending 94½¢ to 95¢ lower, Sept. 77½¢ to 78½¢, the corn market declined a little further and then recovered.

In the late dealings, bears continued to have an advantage, the market being mostly a weather affair. Prices closed lower to 10½¢ advance, Sept. 77½¢ to 78½¢, the corn market declined a little further and then recovered.

By FRANK SINCLAIR

"WHEN TOM JONES of Wisconsin tells you anything you can stake your life on it." That's the way St. Louis of Chicago talks to his underlings about the director of athletics at the University of Wisconsin. Jones is the Klondike coach at the high school and director of local playgrounds, who took some work under the "old man." Jones has been criticized by some of the underlings, but because he does not go out and procure athletes for the Badger team—get them in any manner, no matter how he gets them, even if it is by "buying" them. Jones is noted throughout the conference as a "man shooter," a man who will do anything but offer a bad financial inducement. At the basketball tournament last spring, Jones reported, Jones urged all athletes present to come to Wisconsin. "We cannot make you any offers," he is quoted as telling the kids, "but we can make you." Wisconsin ranks no lower than third in all branches of athletics in the conference.

"AN EQUAL charge to all" will be the policy on football tickets. There will be no sliding scale. There will be \$2.50 with no sliding scale. There will be some grumbling, but it will be a question of "first come, first served." Better get your order in early.

SERVICE is the first word in the success of the daily newspaper. The Gazette has shown this in the most progressive "sheet" for a town of this size in the country. Again it demonstrated the fact Thursday night, when for the fourth time in a month it gave the Fans of Friesland a feast in the form of round-by-round returns of the Dundee-Criqui scrap. The megaphoned story before the next round started at the ring, has met with instant appreciation by the public. Add to this the fact that this newspaper is the sports editor of the Dempsey-Gibbons title fight, a round-trip distance of 2,400 miles, and the record of the Gazette for July is one unsurpassed for a city of this size.

## CRUIQU WOBBLES, FLOORED 3 TIMES, BUT BOXES GAMELY

[BY ASSOCIATED PRESS.]

New York—Johnny Dundee, victor of more than 200 ring battles, Friday holds the throne toward which he has fought for 13 years—the featherweight championship of the world—as a result of his spectacular decision victory Thursday night over Eugene Criqui, French holder of the title, in 15 rounds at the Polo grounds.

But while the honors of that triumph rest with the little Italian-American, the glory of battle went to the victor, Dundee, the slender, polite, hero of Verdun, who went down to defeat, fighting to the last against a relentless foe.

Criqui has his title in the same arena where he had lifted it from Johnny Kilbane less than two months ago by knocking out the victor.

New York—The New York state boxing commission Friday announced it had suspended Tom O'Rourke, manager of the Dundee-Criqui fight, for one month.

O'Rourke was suspended for one month for failing to give the Dundee-Criqui fight the proper publicity.

## Mandell to Meet Dundee; Gets Fight Returns Here

"He's sure giving him an awful licking, isn't he?"

That's the way Sammy Mandell, Rockford, featherweight, matched verbally to meet Johnny Dundee, the new champion, at Aurora, Aug. 1st.

Sammy, who appeared in two of his earliest fights in the Janesville ring, got the latest returns of the Dundee-Criqui fight in the Gazette office.

While a crowd of 400—the most demonstrative of the past month—showed emphatically where its favor lay, Sammy was on the inside grabbing for every word that shot over the Associated Press wires and was in Janesville almost before the next blow was struck.

Sammy Picked Dundee "Dundee should lick him easily," he said early in the scrap. "Pal Moore, defeated the Frenchman with a stomach blow and it is sure that Criqui was only lucky when he landed the blow that knocked out Johnny Kilbane. But that Frenchman sure is game, isn't he? Everybody thought Dundee would be able to outlast him with a stomach punch, but I guess he isn't going to do it."

"It's funny to hear Pal Moore tell how he knocked out Criqui. You know I carried a draw with Pal at Aurora and then outpointed him at Memphis. He says he just socked in and hit him in the midriff and the Frenchman just tumbled over in a heap."

Sammy Wolf of Chicago has gone to New York to close the deal for the fight to meet Dundee at Aurora the first of August. We have a verbal contract now, but I suppose now that Dundee is champion, he will not give me a chance to meet him.

A person might conclude that these much advertised steel flats of Dempsey got rather rusty from disuse. The ultimate in improbability would be a women's swimming tournament and no records broken.

# Poor Gas Makes A Lying Oil Gauge!

YES—poor motor fuel makes a liar of your lubricating gauge. Fancying that "full" on the dial means safety in lubrication has cost trusting motorists untold thousands of dollars in unaccountable burnouts, scored cylinders and ruined motors.

Rank, cracked, slow-to-burn motor fuel, squirting its vile drippage of unvaporized kerosene into the oil supply, keeps the level high in the gauge, fooling you into putting off your replenishment with fresh oil—and at every stroke thinning what remains to the danger point—and past!

The safe way is to use the motor fuel that you know to be utterly keroseneless—

**Wadham's True Gasoline**

It is old-fashioned, straight run, real gasoline. Every particle flashes into instant power behind the piston, with no rank, dripping solvents to make a liar of your oil gauge and a wreck of your bearings. Safety awaits you with every filling of True Gasoline.

## 100 WAYS TO MAKE MONEY

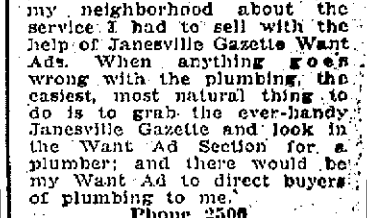

By BILLY WINNER  
If I Were a Plumber—

FIRST of all, I would want to be a good plumber. Next, I would see to it that the families in my territory knew that I was a good plumber.

I would have things fixed so that when Smith's radiator developed a leak, Smith would call for me. When Mason's sink became stopped up, I would be the plumber, Mason would call on the job. When anything in my line went wrong, I would be the man called in to do the repairing.

I would tell the families in my neighborhood about the service I had to sell with the help of Janesville Gazette Want Ads. When anything goes wrong with the plumbing, the easiest, most natural thing to do is to grab the ever-ready Janesville Gazette and look in the Want Ad Section for a plumber; and there would be my Want Ad to direct buyers of plumbing to me.

## I Am Your Telephone Operator

A telephone operator, you know, doesn't stay home when the weather is poor even though you might think she would like to.

Stormy weather means that you and many other men will stay in the office or at home and transact business by telephone. It means that your wife and many other housewives will not venture outdoors but will do their shopping and visiting by telephone.

Stormy weather means more work than usual for the telephone operator. It means that we, who are in the service of the public, are on the job a little earlier and work a little harder than usual.

I know the girls will be very busy at the switchboard so I must hurry along now and help them. It is our job to make your telephone service dependable under all conditions.
